👋 I'm a self-taught programmer and Linux enthusiast with over 10 years of experience building web applications and APIs. My main tools are Phoenix and Vue, and I'm currently focused on learning Elixir and Rust. I'm also passionate about Agile methodologies.

Key Skills

Backend
⬦ Elixir & Phoenix
⬦ Rust
⬦ PostgreSQL

Frontend
⬦ Vue 3, composition api
⬦ ESNext
⬦ BEM, CSS Grid, flexboxes

Working History

2022 - present
Express - a secure, corporate-oriented messenger

Implemented distributed user search and UX for the ABAC role-based system.

2019 - 2022
B2B Beaty Platform for brands and retailers

I've writed progressive web app with Vue/Vuex/Pug/SASS stack. This includes Firebase Auth, integration with REST API and custom components for cropping and processing images.

2017 - 2019
**Graphics Management System** for large expositions.

Reduced dashboard rendering time by adding PostgreSQL materialized views. Implemented Leaflet map with custom plugins: CRUD via Fetch API, filtering & printing.

Personal Projects

Phoenix backend for habits tracker

Vue 3 frontend for habits tracker

NixOS multi-user and multi-host configuration
